

Shivraj Patil

Pune, Maharashtra | raj42patil@gmail.com | +91 8767273768 | LinkedIn: Shivraj Patil | GitHub: Shivraj Patil

LeetCode: Shivraj Patil

Technical Skills

Languages: C++, Python, HTML, CSS, JavaScript, NodeJs, ReactJs, SQL, Java.

Programming Concepts: OOP, Machine Learning, RAG, Data Structures and Algorithms, Software Engineering.

Libraries and Framework: ReactJs, NodeJS, ExpressJs, Django, Scikit-learn, Pandas, NumPy, LangChain, Tensorflow, Keras, OpenCV, Mediapipe, FastAPI, Seaborn, Matplotlib, Hugging Face, RAGAS, LangGraph, Streamlit, NLP, JWT Authentication, Framer-Motion, TailwindCSS, Prompt Engineering.

Databases: MongoDB, MySQL, PostgreSQL.

Tools and Platforms: Git and Github, VS Code, Jupyter Notebook.

Education

All India Shri Shivaji Memorial Society's College of Engineering, Pune

August 2023 – May 2027

B.E. in Computer Engineering (*AIML Honors*)

- CGPA: 9.35 / 10 (Till Semester 5)

B G Patil Junior college, Dhule

June 2020 – May 2022

Higher Secondary (12th)

- Score: 84.67%

Projects

MedIntel

GitHub

- Built a Medical RAG assistant that embeds doctor queries, retrieves top-5 PDF evidence from ChromaDB, and generates grounded clinical answers using Groq (Llama 3.1-8B) with OpenAI fallback.
- *Tech Stack:* Python, Langchain, HuggingFace, ChromaDB, MiniLM-L6-v2, Numpy, Streamlit, PyMuPDF, NLP.

BlinkWatch

GitHub

- Built a real-time drowsiness detection system that analyzes eye-blink behavior using temporal sequence learning, trained on 20K+ frames for reliable alert prediction.
- *Tech Stack:* OpenCV, MediaPipe, Numpy, Pandas, Scikit-Learn, RandomForest, LSTM, Tensorflow, Keras.

Code Reviewer

GitHub

- Built an AI-driven code review tool using Google Gemini, improving code quality and review efficiency.
- *Tech Stack:* Tech Stack: ReactJs, NodeJs, ExpressJs, Axios, Gemini LLM.

Real Estate AI Analytics

GitHub

- AI-powered real estate analytics chatbot that responds to natural language queries with insights, charts, and downloadable reports. Includes authentication, admin controls, dataset uploads, and persistent chat history.
- *Tech Stack: Backend-* Python(Django, Django REST framework, JWT Auth, OpenAI LLM. *Frontend-* React, Recharts, Axios, Bootstrap. *Database-* SQLite(Local), NLP.

Experience

Co-Head - Web Development Domain, GDG AISSMS COE

Sept 2024 – Aug 2025

- Co-headed GDG AISSMS COE web-development team and led tech planning for events.
- Built responsive web apps and guided developers with code reviews and best engineering practices.

Member, TedsAISSMS COE

Nov 2024 – Present

- Coordinated event logistics, managed scheduling, and supported on-ground execution for smooth operations.

Co-Head, Management Department, Student Committee AISSMS COE

Sept 2024 – June 2025

- Managed logistics and execution of major college events for smooth operations.
